ZKProof Charter

Boston, May 10th and 11th 2018

The goal of the ZKProof Standardardization effort is to advance the use of Zero Knowledge Proof technology by bringing together experts from industry and academia. To further the goals of the effort, we set the following guiding principles:

- The initiative is aimed at producing documents that are open for all and free to use.
  - As an open initiative, all content issued from the ZKProof Standards Workshop is under [Creative Commons Attribution 4.0 International](#) license.
- We seek to represent all aspects of the technology, research and community in an inclusive manner.
- Our goal is to reach consensus where possible, and to properly represent conflicting views where consensus was not reached.
- As an open initiative, we wish to communicate our results to the industry, the media and to the general public, with a goal of making all voices in the event heard.
  - Participants in the event might be photographed or filmed.
  - We encourage you to tweet, blog and share with the hashtag #ZKProof. Our official twitter handle is @ZKProof.
